ALLEN GOWER, drc., &c.

Throughout Europe and America Telephone Exchanges have already gained such a reputation by facilitating daily intercourse and by ensuring the safety of private and sidered indispensable in all large Cities and Business Centres. Hongkong with its vast commercial transactions and valuable property, is essentially a place where a well-conducted Telephone Exchange will be of the greatest use, and in laying this Prospectus before the Public, the Company hopes that it may count upon the general support not only of the merchants and professional members of the Community, but also of the different Government Departments in order to render the service as

efficient as possible. The Exchange will be worked in the folsubscriber will be supplied with a complete tained. set of Instruments, and will be put in direct communication with the central office by

· When wishing to use the Telephone Subscriber will only have to call the Central Station and give the name of the party he wishes to speak with, the wires are then immediately switched together, and the two Subscribers will be in direct communication with each other. When they have finished, the Central Office is notified to that effect by a Bell Signal, the wires are then disconnected, and any other connection can be made if desired, and so on. The dialogue between the subscribers is of course quite private, and can only be heard by the two parties concerned. It should distinctly be understood that the messages are not spoken to the Contral Office, and thence transmitted to the person to becommunicated with, but the two wires are simply switched together, thus forming one continuousline, over which conversation can be carried with perfect ease and privacy.

The Central Office will, if practicable, be open to the general public, so that any person can thence communicate with the Subwould have to pay a small fee according to expense, and no Fire Insurance will be scribers. For this service, non-subscribers the time they occupy the wire.

Hongkong, saturday, november 12, 1881. RUMOUR has it that the local marine surveyors have sent in a complaint to the for \$3000. Governor concerning the conduct of the Government Marine Surveyor, in regard to certain survey fees. The precise nature of the complaint has not transpired, and for left Singapore for this port to day, the our present purpose it matters little. It enough that representations have been made; and all we desire to do is this. behalf of the public, and to bear out the object of a discussion which took place when the Shipping Consolidation Ordinance and the fees imposed by it were being considered in Council, to suggest to Hi Excellency that the most stringent inquiry should be made in view of any irregularity under its provisions. At the same time, it must be remembered that, in the extensive list of fees to be found Schedule C. of the Ordinance, special ference is made to "Surveys made within an ardent competitor, the Choral Societ Office hours ;" and so far as we can see, no leading member, and the "Pirstes of P provision is made for work done outside of | zance" a promising Frederic. the official limits given by the hours of 10 to 4. This may be rather ridiculous in a busy community like Hongkong; but if such he the law then let some proved arrangement be made to meet the diffi culty. If the hours are unsuitableas experience would seem to declar them to be then they ought to be at once altered, because the convenience of the commercial community should be first considered. However legal it may be to make P. & O. Company a steamer Thibet the ship owner now bear the inconvenience and probable expense caused by such short hours, there can be no question whatever of the unfairness of such an arrangement. CRICKET. A match was played this afternoon be tween the Non-commissioned Officers ment of the Intiskilling Fusiliers and the Remainder of the Garrison, resulting in win for the latter by twenty runs. Cricket Ground, which had been kindly lent for the occasion, was only available till four o'clock when a second innings had all but been completed, the match was therefore decided by the total scored in the first innings, During the second innings the Fusiliers were evidently pulling up on their oponents but there was little prospect of their obtaining the victory. Corporal Lucas, A. H.C. made the respectable score for the Garrison 30 rups in the first innings, and again obtained double figures in the second; while on behalf of the Fusiliers Private Scot made the creditable score of 32, the only double figure, in the first innings, and 19, not out, in the second. The bowling o Gunner Cockerell for the Garrison was most effective in the first, bout six wickets falling to his him for 18 runs. The following are the score :-

with public ambling this morning. Inspector Lindsay said that by virtue of a warrant he held he went to No. 7 Gilman's Bazaar at seven o'clock this morning and found the five defendants in custody of two Chinese Sergeants of police. He gave instructions over night for these Sergeants to be on the alert this merning, and when they saw him coming to go into the house at once and rrest any one found gambling, as if they waited his arrival an alarm would be given and no arrest would be effected as they always have a watch on the look-out. We are glad to hear that Mr Inouve whose name may be familiar to our readers as having been sent on a special mission to Peking during the Linchin troubles last year, has been promoted from the Secretaryship of the Daijo Kuan to be a Senator of the Sanii In. This rise is unusually sudden, and speaks well for the favoumble opinion entertained of the abilities of this young diplomatist by his Government.

One of the first compliments that the young Prince will receive on their arrival here will be an invitation to the St. Ar drew's Ball which it is believed they wil accept. In the event of their doing so the meeting held in honour of the Patron Saint of Scotland will be more than usually suc ceasful and farmonious. The Scotch resi dents make their Ball, at a rule, a the roughly comopolitan gathering, and it only natural that the people of all nations should be agrious to meet the Princes. W are, therefore, hopeful that the Ball will a greater success than it would be under normal conditions. The names of those who are on the Committee give a sufficient guarantee that the arrangements for the Ball will be carried out with that completeness and perfection which only St. Andrew can evoke. It is not out of place in this connection that we should remind our readers, especially those who are born North of the Tweed, that the father of the two young Princes who are shout to spend a thesay, and as such particularly entitled to

In the last number of the Guardian Mr Herbert Lawrence makes an appeal on behalf of his sister's work at Ningpo, which we can endorse. Miss Lawrence has been engaged for ten years in superintending the work of soveral Biblewomen in and round Ningpo, in supporting a school for he female children of native converts, and in translating standard works of theology into the colloquial dialect. An effort is being made to render the boarding school entirely self-supporting, by teaching the children to rear their own silkworms, spin their own silk, and make all their own clothes. By the kindness of a few former residents in China a sewing-machine for stitching the thick soles of the Chinese shoes has been sent out and found very useful. Among other translations which Miss Lawrence has completed we may mention "The Continuity of Scripture," by Lord Hatherley who most kindly delrayed the cost of printing in the native dialect "a vocabularly of nearly 7,000 characters," besides several portions of the Church Services. Standard theological books are now much required, and also a magic lantern to instruct as well as amuse the scholars, and a trypograph to facilitate the reproduction of lessons and translations. THE HONGKONG REVENUE. (L. d. C. Express, Oct. 7.)

His Excellency Sir John Pope Hennesey once more able to chronicle an addition to what may be called the reserve fund of the colony of Hongkong. At the meeting of the Legislative Council, held on the 23rd August last, it was announced that the revenue for 1880 had exceeded the estimates by no less a sum than \$45,000, while the expenditure had been kept within the ostimates by nearly \$30,000. This being so, it was hardly necessary to remark that the surplus fund of the colony had increased: but H.E. the Governor could not refrain from exulting over the financial position. The greatest increase in the revenue occurred under the head of taxes, which are credited with \$230,557, against an estimate of \$183,400, or more than the total gain. Notwithstanding this, however, there are no signs of any alteration in the rate of taxation, although for the current year a further surplus is calculated of \$78,586. These surpluses are all very well in their way as showing that if the taxes are only heavy enough revenue can be made to exceed expenditure: that is a state of things, however, which it does not take much financial ability to accomplish; but it is rather hard on those who are taxed to be called on to demonstrate this very simple problem. Real financial ability, or rather real successful government, is to secure prosperity and a reduction of taxation. People living under a system of taxation which is needlessly onerous are little inclined to rejoice at the fact that their payments are simply made to be stored up in the Government coffers. On the contrary, they are aptivery justly to object to making large payments simply for the sake of enabling the Gover- H.K. Fire Ins. Co., \$905 per share. nor to gloat over the hoards which he is collecting. Such is the case at Hongkong. Year after year we hear of the same taxation and increases of surplus. Year after year complaints are made of the want of grants for public works, and all the time there are at the command of the Governor funds sufficient to more than doubly cover the expenditure required on absolutely necessary improvements. Not only this, but actual grants to public institutions are resisted whenever the faintest semblance of a reason for so doing can be adduced. This is not as it should be, and the people of Hongkong ought to raise a strong outcry against this method of proceeding. Our Colonies are not called on to assist the mother country for home expenses like the Netherlands-India. They are only asked to make both ends meet, and if they have a surplus owing to the enterprise and energy of the communities, such surplus is expected to be devoted to improvement and further development. This is not Sir John Pope Hennessy's idea. All he aims at is to leave Hongkong at the end of his term of office with a plethorn of unused cash obtained by taxation, and the refusal to carry out improvements. There is a line beyond which if the spirit of retrenchment goes the results are disastrous, and this line it seems to us has been reached in Hongkong. I is time some active steps were taken to make a representation of the state of things. No one objects to pay necessary taxes to the latest London and Colonial Papers, and keep up a colony, but such payments are. only necessary when there is a chance of the ordinary expenses of establishments running closely on the revenue. This not so in Hongkong, but just the reverse The revenue far exceeds the expediture. The only reason we can assign to the action of the Governor is that he anticipates a gloomy future for the colony after it is own :-deprived of his presence, and is laying up for a rainy day, so as to earn the gratitude

OPIUM. November 12. No change has taken place in the position of the market for Bengal Opium since last report. Notwithstanding the receipt of a very full supply for the month, the rates have kept steady for both kinds, so far: and the business of the fortnight has been on a fair scale. The day's quotations are given at 26161 to \$6171 for both Patna and Beneres.

The receipts, so far, aggregate 3,870 chests, against 3,772 chests at the corresponding period last year. During the interval some 600 chests have been taken by the local consumers, against 1,200 chests at the corresponding period last year. This with the exportations, leaves the available supply computed at 3,300 chasts, against 2,400 chests at the same period last year. Of this last quantity 350 chests were Benares, of which kind the present stock coinprises 1.000 chests.

ABSTRACT OF PEKING GAZETTE. A WORTHY CUSTOMS OFFICIAL. (N.-C. Daily News). A memorial from the Governor-General of the Two Kuang, bringing to the notice of the Throne the great services rendered by Chin-Ch'i, the late Superintendent of Customs at Canton. The administration of the officer in question was characterised throughout by the greatest integrity and ability, and his services were especially valuable on the occasion of the opening of Pakhoi to foreign trade in 1877; the duty receipts at which port, owing to his admirable management, have shewn a constant yearly increase up to the present time. During the present year he responded to a requisition of the Board for funds over and above the regular assessment, by a remittance of Tls. 31,000, and his adjustment of difficult questions arising out of the relations between Chinese and foreigners at Canton, always gave the greatest satisfaction. In any subscription for charitable purposes, his name appeared at the head of the list,

and the munificent sums subscribed by him to the relief of sufferers from storms and floods in Kuangtung, have been on several occasions reported to His Majesty. Although Chün-ch'i has received more than one mark of Imperial favour since the expiration of his term of office, memorialist still deems it his duty to lay this somewhat extended notice of his services before the Throne. THE CHINESE IN NATAL. (Natal Witness.)

With characteristic quietness and per severance. John Chinaman is gradually establishing himself as a component part of the labouring population of Natal. Not only in Durban, but also in the "City," may the well-known yellow face and almond eyes of the Celestial be recognised. But a few words of conversation with him will soon discover him to be the same unobtrusive, plodding, selfpossessed, and rather sly individual familiar to all who have known him in his own country, and still possessing the same eye to the main chance which is everywhere one of his strongest national traits. The Chinese have been called the Anglo-Saxons of Asia and in so far as steady perseverance and industry form part of the Anglo-Saxon character, they are certainly entitled to the appellation. When I joined, Bishop Grubb said I sught to marry, so I proposed his six daughters, and we were consolidated at once. On the following Thursday the pishop died. He left 11 widows. His executors pointed out that I might probably assuage their grief and get a firmer grip on the property by taking them out of their loney condition. So I married them, and also pulled in two sisters of one of them, living in Idaho, and a cousin of another—a cousin who was single and had a cast in her eye.

TOOK THREE THROWS.

There is always a crowd around the place on Griswold street where you can throw three balls at the doll-babies on a wooden rack and earn a cigar made of cabbage-leaves and old fly-paper for every one you hit. An excursionist was planking down his nickels there recently and tearing his coat up the back in a vain attempt to win a cigar, when along came a little old man with pipe-stem voice and a plug hat which must have been at least twenty years old when the war closed. THADE MARK-PHOSPHODYNE. SANCTIONED BY HER MAJESTY'S GOVERNMENT. Protected under the "Trade Marks Act" (3 and 30 Vict., ch. 91). Enacted by the "Queen's Most Ex-

CELLENT MAJESTY," 20th August, 1875. HEALTH, STRENGTH AND ENERGY.

PHOSPHODYNE Discovered and so named, A.D. 1862, by R. D. Lator, M.D. TO RESIDENTS IN INDIA, CHINA, AND THE COLONIES, IT WILL PROVE INVALUABLE, AS A RELIABLE LIVER TONIC AND A VITALISING RESTORATIVE.

DR. LALOR'S PHOSPHODYNE Is a Pure Solution of Phosphorus, pleasant in flavour and appearance, being a perfectly Bright Liquor, combined with Vegetable Alkaloids, possessing marvellous Curative Properties, the Wonder of Modern Chemistry, free from all Dangerously Active Drugs; innocent in its action, and pronounced by the Highest Medical Authority to be unequalled for its power in replenishing and elaborating the Vitality of the Body; by its supplying all the essential constituents of the Blood, Brain, and Nerve Substance; and for developing all the Powers and Functions of the System to the highest degree, thereby checking all Wasting of the Vital Fluid, and the more Exhausting Wear and Tear of Life resulting from Over-taxed Energies of Body or Mind, maintaining that-Buoyant Energy of the Brain, Nervous, and Muscular Systems, which renders the

Mind Cheerful, Happy, Brilliant, and Energetic. DR LALOR'S PHOSPHODYNE

Surpasses all the known therapeutic agents of the present age, as The Only Safe, Reliable and Permanent Cure For all Darangements of the Nervous and Blood

Nervous Prostration, General Debility, Mental and Physical Depression, Incapacity Systems. for Study or Business, Noises in the Head and Ears, Loss of Energy and Appetite, Nervous Debility in all its Stages, Softening of the Brain, Sleeplessness Paralysis, Pains in the Back, Affections of the Kidneys, Urinary Deposits, &c., Asthma, Scrofula, and Skin Diseases, Wasting or Withering of the Muscles, Impure and Impoverished Blood, Premature Decay of Vital Power and all morbid conditions of the system dependent upon the deficiency of the Vital Forces arising from whatever cause.

THE ACTION OF DR. LALOR'S PHOSPHODYNE

Is Two-fold and Specific; on the one hand increasing the principle which Constitutes Nervous Energy; and, on the other, the Most Powerful Blood and Fleshgenerating Agent known; therefore a Marvellous Medicine for Renovating Impaired and Broken-down or Exhausted Constitutions, making the recipient as vigorous as if nature had never been retarded or debilitated.

AN ALARMING FACT.

Tens of Thousands of the people of China are to-day dying from the effects of Brain Disease, Dyspepsia or Disordered Liver, which sap the springs of life. The results of these diseases upon the masses of intelligent and valuable people is most alarming, making Life actually a burden instead of enjoyment and usefulness, as it ought to be. There is not any good reason for this, seeing the united testimony of a great number of sufferers establish that DR. LALOR'S PHOSPHODYNE is superior to any Medicine jet discovered for the Cure of Dyspepsia and Liver Complaints in all their varied forms. The promptness and certainty of its action is such that when the fire of life seems to be dying out in the system, and the mind sympathising with the body, is reduced almost to a state of imbecility, this mighty PHOSPHORIC Restorative, by a few doses, seems as it were to lift the sufferer out of the slough of despond, and recruit and reinvigorate both the frame and the intellect.

TWENTY YEARS' PUBLIC TEST

Prove these facts unimpeachable, being fully borne out by thousands of testimonials from every nation and country in the world, freely offered by distinguished families, private persons, military, naval, scientific, and professional men who are well known, and who have experienced from its use all the benefits here indicated. DR. LALOR'S PHOSPHODYNE is sold in Bottles at 4s. 6d. and 11s., by all Export,

Wholesale and Retail Medicine Vendors throughout the World. The large and continually Increasing Sale of Dr. Lalor's Phosphodyne, since its introduction in 1872, has led some unscrupulous persons to foist Bad Imitations

on the Public Abroad. Read the following Notice :-IMPORTANT NOTICE.—NONE IS GENUINE UNLESS the name Dr. Lalor's Phosphodyne, London, England, is blown in the Glass of each Bettle, and every Bottle bears the British Government Stamp, with the words Dr. Lalor's Phos-PHODYNS, London, England, Engraved thereon by Order of Her Majesty's Honourable Commissioners; IF NOT, IT IS A FORGERY, and you have been imposed on by a worthless limitation.

DR. J. COLLIS BROWNE'S CHLORODYNE (Ex Army Med. Staff)
IS THE ORIGINAL AND ONLY

CAUTION.-Vice-Chancellor Sir W. P. Wood stated that Dr. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant Freeman being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's. - See Times, July 12, 1864. The public, therefore, are cautioned against using any other than

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered. CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE effectually checks and arrests those too- often fatal diseases-Diphtheria, Fever, Croup, Ague. CHLORODYNE acts like a charm in Diarrhoea, and is the only specific in Choleraand Dysontery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasins. CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothacke, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London.-"Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justiy-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging trom their sale, we fancy their sojourn there will be but evanescent. We could multiply instances ad infinitum of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhoea and Dysentery, Spasins, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used my other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate breach of faith on the part of the chemist to prescriber and patient alike. We are, sir, faithfully yours, symes & Co., Members of the Pharm Society of Great Britain, His Excellency the Viceroy's Chemists." Extract from the General Board

THE CHINA REVIEW.

THE widely-expressed regret at the discontinuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

THE CHINA REVIEW, or Notes and

Queries on the Far East, is issued at intervals of two months, each number containing about 60 octave pages, occasionally illustrated with lithographs, photographs, woodcuta, &c., should the papers published demand, and the circulation justify, such

extra matter.

The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents in Hongkong half-yearly in advance.

The publication includes papers original and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Customs, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelego and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Portuguese, are admissible. Endeavours are made to present a resumé in each are made to present a resumé in each number of the contents of the most recent Occurred works bearing on Chinese matters. Great Oly attention is also paid to the Review Pac

department. Notes and Replies are classified together as "Notes" (head references being given, when furnished, to previous Notes or Querics), as are also those queries which though asking for information, furnish new or unpublished details concerning the matter in hand. It is desirable to make the Queries proper as brief and as much to the point as possible.

The China Review for July and August, 1875, is at hand. It says that forty-two . essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learned societies should subscribe to this scholarly B. and enterprising Review. It is a sixty paged, bi-monthly, repertory of what scholars are ascertaining about China. The lecture on Chinese Poetry in this volume is alone worth the price of the Review. Address China Review. Hongkong.-Northern

Christian Advocate (U.S.) Trubner's Oriental Record contains the following notice of the China Review :- " This is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as in some respects a continuation of Notes and Queries on China and Japan, the extinction of which useful serial a year or two ago has been much regretted in Europe as well as in China. The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, umong whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the Review by papers highly creditable to their respective authors. In a paper on Dr. Legge's She King, by the Rev. E. J. Eitel, to which the place of honour is deservedly given, an excellent summary is presented of the chronological problems and arguments involved in connexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-p'o. by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its predecessor in the field, and that the China Review may receive the support necessary to insure Its continuance, The publication is intended to appear every two months, and will form a substantial octave magazine.

THE CHINESE MAIL.

This paper is now issued every day. The subscription is fixed at Four Dollars per annum delivered in Hong. kong, or Seven Dollars Fifty Cents including postage to Cosst ports. It is the first Chinese Newspaper ever

issued under quirely native direction. The chief support of the paper is of course derived from the native community, amongst whom also are to be found the guaranters and securities necessary to place it on a business and legal footing. The projectors, being their estimates upon the most reliable information from the various Ports in China and Japan,from Australia, California, Singapore,

Penang, Salgon, and other places frequented by the Chinese, - consider themselves justified in guaranteeing an ultimate circulation of between 3,000 and 4,000 copies. The advantages offered to advertiscrs are therefore unusually great, and the foreign community generally will find

The field open to a paper of this description-conducted by native efforts, but progressive and anti-obstructive in tonecommands Chinese belief and interest while on the other it deserves every aid that can be given to it by foreigners. Like English journals it contains Editorials, with Local, Shipping and Commercial News and Advertisements.
